Mr. Tom Gainer  
Oregon Department of Environmental Quality  
2020 SW Fourth Avenue, Suite 400  
Portland, OR 97201-4987

**Subject: Terminal 4 Slip 1 Upland Facility  
Upland Feasibility Study and Surface Soil Sampling Report  
ECSI No. 2356**

Dear Tom:

The Port of Portland (Port) is pleased to submit the Oregon Department of Environmental Quality (DEQ) the Feasibility Study (FS) for the Terminal 4 Slip 1 Upland Facility and Surface Soil Sampling Report.

The Upland FS report submission incorporates the DEQ October 14, 2008 comments, Port November 7, 2008 response to comments, and follow-up discussions on the *DRAFT Upland Feasibility Study, Terminal 4 Slip 1 Upland Facility, August 2008*. In addition, the Upland FS report reflects the additional soil sampling collected to support the Terminal 4 utility rack infrastructure improvement provided to DEQ in the July 2, 2009 letter and the results from the enclosed Surface Soil Sampling report conducted in 2010.

Please call me at (503) 415-6676 if you have any questions.

Sincerely,

A handwritten signature in black ink, reading 'Kelly Madalinski', is positioned below the 'Sincerely,' text.

Kelly Madalinski  
Environmental Project Manager
